They're Easy to Get, But Gee! They Do Come High

You can get 'em if you want 'em, according to Joe Engel and E. C. Davis, who have recently been in New York, but highballs are so high that your appetite is likely to be turned off a day or two. They report that four men drinking four highballs—a round apiece, finished—paid \$12.50 for the indulgence, at Ricker's recently. It comes as a shock to national prohibition.

It was said that the drinks were \$16.00 and there was a cover charge of \$2.50 for the four.

If you go into a bar—most any bar—you will find a waiter and a waiter with your hand, the waiter comes up on the bar a perfectly good highball and the charge is a dollar and a quarter.

Wm. J. Burtin, attorney and mayor of Socorro, N. M., was an arrival at the Sheldon Friday.

REPORT SHOWS JAP SMUGGLING

Inspector of Immigration
Service Files Report for
Fiscal Year.

The smuggling of Japanese from Mexico into the United States in the western border regions, a recommendation for an increase of the personnel of the immigration service here and data concerning the total number of aliens going through the local port during the fiscal year ending June 30, constitute the chief items of the annual report of P. W. Berkshire, supervising inspector for the service.

The report shows that the total number of aliens passing through the port was 21,428, while the number excluded was 207, or 0.95 percent. 7 total of 12,166 persons paid the head tax, amounting in all to \$26,346.

During the year 10,079 aliens applied for admission to the United States along the Mexican border and for this number 3711 were denied admission. Those figures include both those seeking residence in the United States and those entering under the contract labor law. Total exclusions amounted to only 1.55 percent.

Literary Test in Effect.

This figure is in spite of the fact that the literary test is again in effect and shows that although the volume of immigration has increased, the quality of immigrants remains virtually the same.

The chief cause of exclusion was the probability of the applicant becoming a public charge. Physical defects, admission of crimes involving moral turpitude and failure to meet the age requirements were among the other causes. One paper was refused admission. Japanese and Korean immigration was light, as was Chinese. San Joaquin was the only Chinese port of entry. Fifty-three Japanese were admitted.

The Chinese sought refuge in this country in large numbers on the withdrawal of the American punitive expedition. Of those entering some returned to their homes in China at their own expense, some committed suicide, others are employed and are insane.

Great evaders and slackers arrested during the year numbered 624, while 62 alien enemy suspects were arrested. On the same date, 1918, the total amount was \$350,000. The total arrests made along the border were 207, and of this number 165 were deported. The total number of immigration employees along the border is 225.
